PROFILE SUMMARY

Full Stack Software Engineer with 2.4+ years of experience building scalable, responsive, and API-driven web applications using **Next.js, React.js, TypeScript, JavaScript, Node.js, Express.js, MongoDB, Redux, and REST APIs**. Skilled in **MERN stack development, reusable UI components, authentication, authorization, database-driven workflows, third-party integrations, Agile, CI/CD, testing, and production troubleshooting**. Worked on **WhatsApp and email marketing workflows** using **MSG91 and Mailgun**, with experience in team coordination, release validation, and cross-functional delivery.

SKILLS

Frontend: Next.js, React.js, TypeScript, JavaScript (ES6+), Redux, HTML5, CSS3, Tailwind CSS, Ant Design

UI & Styling: Responsive Design, Flexbox, CSS Grid, Reusable UI Components

Tools: Git, GitHub, JIRA, SonarQube, AWS, Vercel, CI/CD

Concepts: MERN Stack, API Integration, SDLC, Agile/Scrum, Authentication, Authorization

Backend & APIs: Node.js, Express.js, REST APIs, JWT, Postman, Swagger, WebSockets

Testing: Jest, JUnit, Mockito, JaCoCo

Databases: MongoDB, PostgreSQL, SQL

AI Tools: ChatGPT, Claude, Gemini, Cursor, GitHub Copilot

WORK EXPERIENCE

SuperAGI (Bengaluru)

Nov 2025 – April 2026

Software Development Engineer – 1

- Built **WhatsApp/email campaign workflows** using **React.js, TypeScript, Redux, REST APIs, MSG91, and Mailgun**.
- Integrated **MSG91** for WhatsApp and **Mailgun** for email campaigns, supporting delivery tracking.
- Developed dashboards for campaign analytics, delivery status, failed recipients, retries, filters, and performance signals.
- Coordinated a **6-member Dev/QA team** for task tracking, testing, debugging, and release validation.
- Implemented **virtualization, lazy loading, and code splitting**, reducing DOM rendering overhead by **60%**.
- Optimized API-driven search/filtering using **debouncing and rendering improvements**, reducing re-renders by **30%**.

MBB Labs Private Limited (Maybank) (Bengaluru)

Jun 2024 – Nov 2025

Product Engineer Intern

- Delivered enterprise loan application features using **React.js, JavaScript, Redux**, and deployment environments.
- Built responsive UI workflows, integrated backend APIs, and supported business-critical commercial loan modules.
- Fixed **200+ production UI issues**, improving stability, cross-browser compatibility, reliability, and user experience.
- Built **3,000+ automated unit tests** using **JUnit, Mockito, Jest, and JaCoCo**, increasing coverage to **85%+**.
- Performed SDLC, deployment validation, release verification, systems analysis, and documentation for UI, APIs, DB tables, payloads, IDs, and business rules.

Opethic Software Solutions LLP (Solapur)

Sept 2023 – Jan 2024

Junior Software Developer

- Built authentication and authorization modules using **MongoDB, Express.js, React.js, Node.js, JWT, and REST APIs**.
- Improved onboarding efficiency by **20%** through secure login, access control, and user workflow enhancements.
- Optimized search and filtering using **debouncing techniques**, reducing unnecessary API calls by **30%**.
- Implemented **Redux-based state management**, improving predictable data flow and UI responsiveness by **10%**.
- Integrated backend APIs with real-time UI updates, increasing user engagement and workflow visibility by **25%**.

PROJECTS

Rabbit – MERN Stack E-Commerce Application

[Live](#) | [Repo](#)

- Built a MERN e-commerce platform with product listing, cart, checkout, order tracking, and admin workflows.
- Integrated **Razorpay live payment APIs** for secure online payments and real-time order processing flows.
- Implemented **Redux Toolkit** and **JWT authentication** for scalable state management and protected routes.

AI Quick Blog – MERN Stack Blogging Application

[Live](#) | [Repo](#)

- Built an AI-powered MERN blogging platform with home page, blog details, admin panel, and fully responsive UI.
- Integrated **Google Gemini API** for AI blog generation and **ImageKit** for optimized image upload workflows.
- Developed secure **REST APIs** for blogs, comments, admin data, image handling, and deployed app on **Vercel**.

EDUCATION

Dr. Babasaheb Ambedkar Technological University, Lonere

- Bachelor of Technology, Civil Engineering (2018 – 2021) — GPA: 8.88
